

PRICE INCREASE NOTICE

Effective June 15, 2010, US Polymers-Accurez Specialty Chemicals will increase list and off-list selling prices on all resin products. The price increase is effective for orders that ship on or after June 15, 2010. The price increase information is as follows:

Products	Pricing
Modified Alkyd Resins - HPP Product Series	\$0.05/lb to \$0.10/lb
Polyesters Polyols	\$0.07/lb to \$0.09/lb
Formulated OPVs	\$0.04/lb to \$0.06/lb
WB & SB Epoxy Esters - Epi-Tex Product Series	\$0.06/lb to \$0.08/lb
Specialty Modifiers	\$0.05/lb to \$0.10/lb

The on-going escalation in all costs related to the manufacturing of these products including feed stocks, raw material, energy and transportation are the drivers for these product increases. Despite the best efforts of US Polymers - Accurez to minimize the impact of these increases to you, we can no longer absorb the impact of them.

US Polymers will be in contact with you to discuss the impact on the specific products that you purchase.

We, at US Polymers, appreciate your support and business during this difficult time of raw material shortages and escalating costs.

Sincerely,

George Birdsey
VP & General Manager
